Verataur BioErase Sales-2020.pdf; Verataur BioErase Sales-2021.pdf;

Good day Macy, after discussing this matter and request with our owners, legal, EPA consultant and the manufacturer, all I am able to release at this point is the sales records attached regarding the BioErase product discussed. Any other documents or information regarding the product and label are owned by the manufacturer and part of our confidentiality section in our Distribution agreement with the manufacturer. The manufacturer (Environmental Manufacturing Solutions) suggests that the EPA contact them direct in the event there are any further questions or information request regarding the product or label.

As discussed on your visit to our facility, we responded to a letter sent to us from Region 6 on April 10, 2021 and have not received any information or communication regarding our response or some type of resolution to this matter. As you will see our sales for the company have been near to nothing since this matter arose, along with the publicity it has received thru several avenues in Texas which negated additional sales with other clients.

Again, we would like to request some type of resolution or finalization to this matter so we may move forward in some manner.

Regards,

Gene Garber

Subject: Records from faculty visit

Good afternoon, Mr. Garber. I wanted to check in with you again to see if the owners of Verataur have approved of any records for us to obtain (sales, invoices, etc.) that we spoke about over our visit?

Regards,

Macy Vizier
